Gauri Rasa Lotus Waterskin Fabric is a *web framework* built using *Java*. The divine petals of the *Lotus Flower* are infinite in number and beauty. Despite penetrating the skin of the muddy waters, the *Lotus Stem* maintains purity unaffected by limitations of mechanical time and space.

Saffron Web is *decomposed* and reconstructed using the principles of *Physics, Calculus, Chemistry, Ayurveda*, and nurturing *Gaudiya Vaishnava Bhakti Yoga. Lotus Waterskin Fabric* is currently in development.

Created using Oracles Java language, HTML5 (HyperText Markup Language version 5) technologies and fundamental standards adherence
Gauri Rasa chose *Java* for *Saffron Web. Java* provides the rapid development that *Gauri Rasa* desires. The GCP (Google Cloud Platform) is sufficiently compatible with *Java*.

The use of *Virtual Machines* and Just-In-Time (JIT (Just-In-Time)) compilation is not the preferred choice of *Gauri Rasa*. The development speed and precision of the *Java* language is unique amongst all Object Oriented Programming (OOP (Object Oriented Programming) Languages.

The *Java* language holds true to quality standards more than other OOP (Object Oriented Programming) languages. *Gauri Rasa* has a C Sharp (C# (C Sharp)) port envisioned for Microsoft compatibility. Also some C Plus Plus (C++ (C Plus Plus)) porting is envisioned for optimal processing.

HyperText Markup Language version 5 (HTML5 (HyperText Markup Language version 5)) standards are being strictly followed by *Gauri Rasa. Accessibility*, Search Engine Optimization ((Search Engine Optimization)), reliability and overall usability are maximized in *Garui Rasa Saffron Web*

Low Impact Web(2019.Summer) Creative Fluidity(2019.Winter)
Gauri Rasa Low Resource Web(2019.Summer) Creative Fluidity(2019.Winter)

Ancient *Wisdom* and Traditional *Vision*
Ishvari and Eeshwar are entering the professional industry with 2 decades combined of *Spiritual Endeavor*. *Gauri Rasa* has earned several degrees in attending to the departure from the typical career path.

Ishvari and Eeshwar are Educated with practical devotional experience and spiritual wisdom unattainable in Universities. *Gauri Rasa* also has proven creative skills that parallel, dissect and advance beyond industry standards.

Gauri Rasa sees the invisible. *Gauri Rasa* hears the unheard. *Gauri Rasa* lives between the lines. *Gauri Rasa* weaves the fabric of potential energy.

Devotional Intention
The intentions of *Gauri Rasa* are rooted deep within the ever replenishing well spring of devotional enthusiasm. Spiritual progress for ourselves and others is our greatest wealth.

Environmentally Conscious
Gauri Rasa has farm community experience; Living with and tending cows; Knowledge of ultimate truth that defines the global situation; Ancient transcendental scrolls carried by flying Garudadeva; Messengers from Vishnu landing on earth to restore balance; Consciousness so fine and pure that stone melts glowing golden.

Gauri Rasa has tasted spiritual reality. The path to a healthier planet is already visible. Our goal is to make that effulgent path appear to others as attractive as it actually is. Before we can open our eyes, we must rise above muddy waters; Break through the skin of muddy ponds surface and blossom like a *Lotus*; Flower petals blooming untouched by our previous ignorances.

Low Resource Consumption
Saffron Web maintains the principle of *Low operation costs*. The best way to have and keep more resources is to use less resources. From the start of development *Gauri Rasa* has designed *Saffron Web* with optimal efficiency.

The *Google Cloud Platform App Engine* starts at around $30 per month for minimal operations. Increasing GCP (Google Cloud Platform) App Engine features and scalability can easily cost thousands of dollars per month.

Simplicity has its benefits.

The *Saffron Web Lotus Waterskin Fabric* is envisioned to provide the *Creative Fluidity*. All you have to do is point *Saffron Web* in the direction you want it to grow.

Gauri Rasa Saffron Web Lotus Waterskin Fabric Creative Fluidity (2019.Winter)
targeted *actual machine costs*[1] **$5 per month**.

Gauri Rasa Sarasvati Raga (2020.Summer)
targeted *actual machine costs*[1] **$10 per month**.

[1] *actual machine costs* are strictly machine resource usage cost estimates and are calculated before other potential costs. Multiple sites, apps, nodes and distribution points are expected to be covered by this low cost.

Future envisioned enhancements include *Gauri Rasa Games* and *Large Volume Web Activity* may be more costly.

Fluid Concepts (2019.Winter)
Gauri Rasa knows organic living and progressive lifestyle. We work better with smooth, round and comfortable. There is no need for rough, rectangular and cumbersome.

At its finer levels, our consciousness vibrates with liquidity. There is no need to repeatedly confine our minds to rigid systems and patterns.
